[Software Development Technologist]

Software Development Technologist, Quito Metropolitan Higher Technical Institute

I am currently studying for a Bachelor's degree in Software Development at Brigham Young University in Idaho, USA (online) to complement my technological skills. I am preparing to compete as a junior programmer in the job market. I have worked in the technology and telecommunications fields since a young age and am constantly accumulating work and academic experience. I am also preparing myself with additional training to master different programming languages, as well as studying the English language.

Skills

- JavaScript, TypeScript,
- Dart, Java, Python, C++, C#
